It Is Hereby Announced That Its Publication, Its Distribution, Its Dissemination Do Not Imply The Applicable Laws, The Regulatory Requirements, And The Available Rules.

INTRODUCTION

This white paper describes a decentralized Ethereum based cryptocurrency in a reader-friendly manner. We are creating an ecosystem that will provide interest to their token holders as well as an opportunity for everyone to enjoy digital assets in the shape of NFT, as well as by offering the liquidity pool in our ecosystem.

Sando Token will be a whole ecosystem that will provide features like Staking, NFT ecosystem, liquidity pool, and Metaverse. Sando Token will develop its own unique NFT collection soon and will connect the decentralized community. Our NFT collections are unique in that only one may exist, and they are difficult to duplicate. As a result, it's safe to suppose that you'll be one of the few people who have these treasures.

Staking will allow users to earn yield in a form of Sando Token. We are revolutionizing the market with a more open, accessible, and fair global financial system with a decentralized Blockchain-powered crypto swapping. Unlike, other conventional platforms, our wallet allows investors to generate more value to user's crypto-assets.

Sando Token will create new standards in crypto space and specially in Ethereum Blockchain. The goal of the Sando Token is to integrate metaverse and NFT to real world.

MISSION

Sando Token is a decentralized platform built on a Ethereum blockchain with a mission to create a community-driven ecosystem that empowered the holders to better their financial condition. Our mission has always been to make it as simple as possible to buy and sell cryptocurrency, while also being a leader in security, reliability, and custody as well as helping the community people at the same time.

- Operate as a community-focused and community-driven digital asset, fully decentralized in every sense of the word.
- Provide every holder with simple and effective ways to gain exposure to digital assets.
- Decrease volatility and increase positive price pressure in digital asset staking.
- We envision building a new brand gaming industry.
- Lower the barrier for entry to a more advanced financial ecosystem.
- Stake your NFT, earn tokens and use it on our own marketplace to buy or sell different things.
- Our main goal is to launch Exchange and Metaverse ecosystem.

VISION

The Sando Token network is built with no restrictions in mind, allowing users to friendly, and transparent Platform. We will develop a novel ecosystem to bring more people into digital assets. Sando Token will create new standards in crypto space and especially in Ethereum platform. Sando Token is going to create a revolutionary ecosystem to bring more people into digital assets, helping to earn a passive income through redistribution/reflection, by stake the token long-term, along with maintaining their privacy, security, and autonomy along with digital and social problems.

Our NFTs will bring more utility to the token and will grow with arts from the community. We also want to launch many decentralized programs like Metaverse, Liquidity pool, and Staking. We also envision to create an revolutionary exchange system for our stakeholders. We strive to create an ecosystem based on sound monetary policies, with a sound and solid decentralized foundation, that should be expected with the Sando Token digital asset.

CORE VALUES OF SANDO TOKEN

1

GREATER LIQUIDITY

Sando Token Will Enable Us To Extract Liquidity From Illiquid Assets That Are Physically Tough To Divide. Tokenization Will Increase Liquidity By Allowing Us To Buy Or Sell A Fraction Of An Asset, Such As NFTs, And Will Lock Up Funds Rather Than The Investor.

2

TRANSACTIONAL FREEDOM

One Of Sando Token's Greatest Advantages Is That It May Be Used To Exchange Value Between Two Parties. This Can Be Done Without The Involvement Of A Third Party, Making The Transaction More Open And Resistant To Censorship.

3

FRACTIONAL OWNERSHIP

Each Token Can Easily Represent A Fraction Of The Total Value Of An Asset. This Lowers The Hurdles To Entry And Allows Everyone To Own A Fraction Of An Asset Like A Property Or An NFT, Making The Business More Accessible To Investors. They Could Also Refer To The Right To A Percentage Of The Earnings On An Asset's Value, Or Even Voting Rights In The Case Of Equity In A Company.

SANDO TOKEN STAKING

Sando Token works on the ERC-20 platform, which is eco-friendly, working on a proof of stake ERC staking ensures users' funds are safe by leveraging effective security measures and providing Secure Asset Fund for Users (SAFU). Our staking method at the time of writing is arguably one of the safest and most eco-friendly methods (for cryptocurrency) to earn passive income.

The platform stores all staked coins using a secure wallet and a double-checking system. As more and more people, including institutional investors, realize the crypto market's lucrativeness, crypto staking is fast becoming a trend of earning passive income by simply holding or locking funds in a wallet.

Since staking cryptos requires some technical crypto know-how and damming requirements, Sando Token staking platforms come in handy to allow investors, even those without technical knowledge of cryptos, to stake PoS coins and earn rewards. For only a percentage of your staking rewards, the staking platform lends you their technical expertise and validates stakes on your behalf, enabling you to earn passive income. The substantial growth of crypto staking has seen a boom in staking platforms allowing investors to earn staking rewards seamlessly. If you're thinking of making passive income through staking Then Sando Token is a fantastic option.

WHY STAKE YOUR SANDO?

Staking is the act of locking up SANDO Token to give you the right to participate in block proposals on the network. Anyone who holds even a small amount of SANDO Token can consider staking. SANDO staking on Ethereum is the platinum standard for staking. It provides full participation rewards, improves the decentralization of the network, and never requires trusting anyone else with your funds. Staking is a public good for the SANDO ecosystem. Any user with any amount of SANDO can help secure the network and earn rewards in the process.

SANDO staking comes with more responsibility, but provides you with maximum control over your funds and staking setup.

Earn rewards:

Rewards are given for actions that help the network reach consensus. You'll get rewards for running software that properly batches transactions into new blocks and checks the work of other validators because that's what keeps the chain running securely.

Better security:

The network gets stronger against attacks as more SANDO is staked, as it then requires more SANDO to control a majority of the network. To become a threat, you would need to hold the majority of validators, which means you'd need to control the majority of SANDO in the system—that's a lot!

More sustainable:

Stakers don't need energy-intensive computers to participate in a proof-of-stake system—just a home computer/laptop or smartphone. This will make SANDO better for the environment.

BENEFITS OF STAKING

NO HARDWARE IS REQUIRED

Unlike Proof Of Work, There Is No Need Of Specific Equipment Or Hardware For Crypto Staking. Proof Of Hold Works With No Equipment Requirements. The Only Requirement Is To Hold The TOKENS For An Interval Of Time By The Holders On Any Exchange.

SCALABILITY

In The Blockchain World, Scalability Is A Concept That Is Often Used. It Refers To A Computational Process's Potential To Be Use Do Generate In A Variability Of Ways. Proof Of Holds Protocols, As Shown By Sando Token Higher Transaction Outputs And Lower Fees, Make For Greater Scalability.

MORE COST-EFFECTIVE

Proof Of Hold Blockchains Are Always Inexpensive And Less Energy-Consuming Platforms With No Particular And Expensive Hardware Requirements. Unlike Proof Of Work Chains, PoS Is More Cost-Effective And Eco-Friendly. So, The Holders Can Earn More Passive Income By Using The SCI Platform.

PASSIVE INCOME

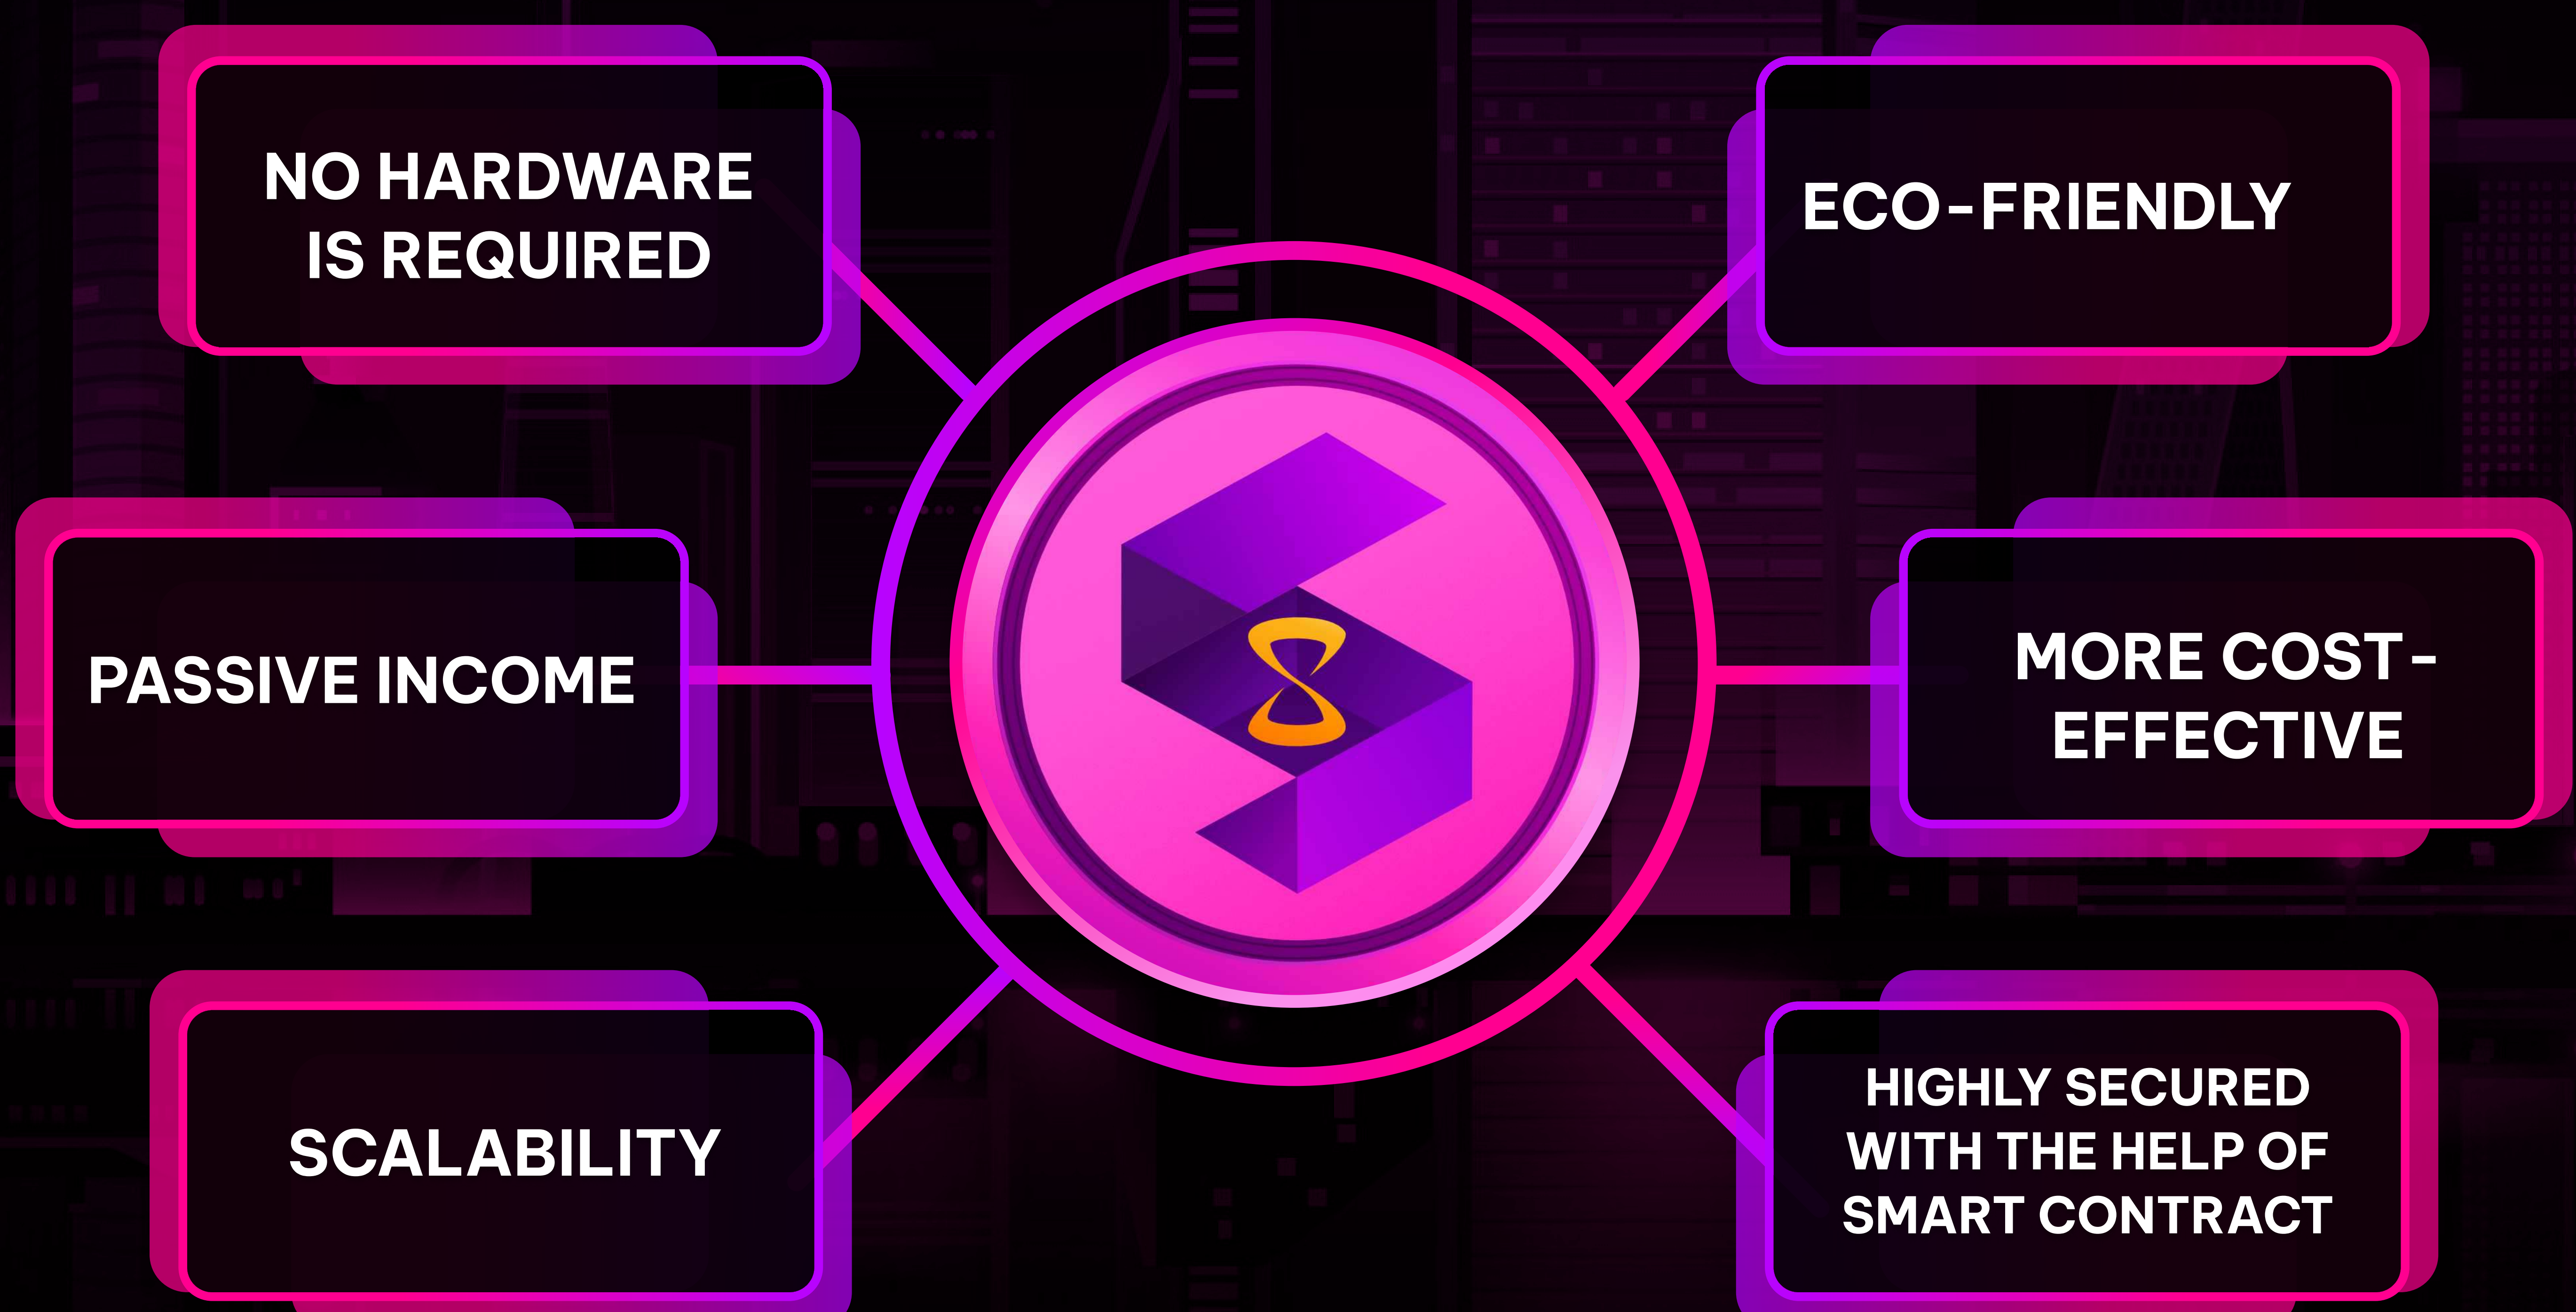

Stakeholders Earn Incentives By Holding And Controlling Their Digital Wealth. Passive Income For The Beneficiary Is The Reward Of Holding.

ECO-FRIENDLY

One Of The Major Benefits For Staking Token Is That It Dont Needs Continuous Supply Of Energy To Validate The Transaction. So It Is Eco Friendly In Nature.

HIGHLY SECURED WITH THE HELP OF SMART CONTRACT

The Biggest Issue In The Modern World Is Security And Privacy, And Sando Provides A Swift And Stable Portal That Is Backed By The Sando Ecosystem Making Him Superior To Others. Sando Token Is Offering A Highly Secure And Fast Platform To The Users For Holding Crypto.

SANDO TOKEN NFT

Sando Token NFT is a vital part of our ecosystem dealing with NFT'S. Sando Token Non-fungible tokens (NFTs) are unique, non-interchangeable assets, minted on-Blockchain. These will be linked to anything from the digital Sando Token. The core attributes of Sando Token NFTs give them unique value and categorically separate them from other types of assets. These properties include being verifiably unique and indivisible. The transparent nature of the underlying code means that the scarcity and ownership of any given token are evident without the need for a trusted intermediary.

We view the emergence of NFTs as a continuation of a paradigm shift from centralized to decentralized systems. This framework is now unlocking fresh business models for the creators of digital and physical collectibles. Sando Token is a widely known NFT project. The underlying token for each Sando Token encodes a unique genome that defines its appearance, traits, and hereditary lineage. Sando Token cannot be replicated and cannot be transferred without the user's permission.

SANDO TOKEN NFT MARKETPLACE

NFTs are rapidly sweeping the world of digital art and collectibles. Digital artists' lives is being transformed as a result of massive sales to a new crypto-audience. Non-fungible is an economic word that can be used for objects like furniture, music files, and computers. Because of their unique features, some goods cannot be substituted for other items.

Fungible goods, on the other hand, can be swapped because their worth, not their unique features, characterizes them. At any given time, an NFT can only have one owner. The unique ID and metadata that no other token can replicate are used to manage ownership. Smart contracts that assign ownership and govern the transferability of NFTs are used to create them.

The NFT technology gives you the peace of mind that no matter what happens to the blockchain, nodes will always be operational. As a result, nothing can really happen to the information. This is due not only to the money they produce, but also to the money they safeguard.

The Sando Token Universal Marketplace allows all players in the game to purchase and sell any asset type, as well as publish job postings for in-game jobs that are compensated. The bulk of the assets traded in the Marketplace will have been earned via in-game activities. It is also a place to keep track of assets acquired through pre-sale and idea sales. Other participants will either put bids or accept the price limit as is. All assets are considered deflationary due to the permanent loss during regular economic activity. Unlike typical online games, this deflationary asset-burning mechanism ensures that assets are unique and limited in availability.

LIQUIDITY POOL

Liquidity providers receive Sando Token for providing liquidity. Users pay fees for trading on DEX, which is allocated to liquidity providers depending on the quantity of LP tokens or percent share they own in the pool. LP may suffer a temporary loss as a result of providing liquidity, and they may not get the same number of tokens back.

The primary goal is to keep the holder informed about the Sando Token performance by avoiding whale dips when they are used in a mass trade-off.

Sando Token secret is LP. We have a function here that serves as a dual-beneficial implementation for holders. To establish a stable price floor. Second, the penalty serves as an arbitrage-resistant mechanism, ensuring that the volume of the Sando Token remains safe as a reward for the holders. In principle, the additional LP provides stability by adding the tax to the token's total liquidity, thus raising the token's overall LP and maintaining the token's price floor.

The price stability of the Sando Token LP mimics this function, with the added advantage of a firm price floor and cushion for holders. The aim is to avoid bigger drops in the price when whales opt to sell their tokens later in the game, which prevents the price from changing as much as it would if the LP mechanism wasn't in place.

All of this is in an attempt to address some of the issues with the existing reflection tokens. For these reasons, we are sure that our system and protocol will triumph over outdated reflection tokens are sure that our system and protocol will triumph over outdated reflection tokens.

Liquidity refers to the efficiency or ease with which an asset or security can be converted into ready cash without affecting its market price. The most liquid asset of all is cash itself. Liquidity refers to the ease with which an asset, or security, can be converted into ready cash without affecting its market price.

- Cash is the most liquid of assets, while tangible items are less liquid. The two main types of liquidity include market liquidity and accounting liquidity'
- Current, quick, and cash ratios are most commonly used to measure liquidity.

SANDO TOKEN EXCHANGE

It is an easy, fast, and secure exchange in a truly decentralized way. We are going to create an ecosystem where people will launch their own decentralized exchange. It is a peer-to-peer (P2P) that connects buyers and sellers where the people can exchange their token to the desired one. The Exchange is non-custodial, meaning a user remains in control of their private keys when transacting on a DEX platform.

ADVANTAGES

1-NO KYC/AML

KYC/AML (Know Your Customer And Anti-Money Laundering) Compliance Is The Norm For OUR Exchanges. For Regulatory Reasons, Individuals Must Often Submit Identity Documentation And Proof Of Address. Our DEX Doesn't Demand Any Of Documents For Verification Purposes Make The User Completely Anonymous.

2-ADITIONAL FEATURES

- Powerful Matching Engine
- Multi-Layer Security
- Instant KYC And AML Verification
- Preferred Trader Selection
- Admin Panel
- Support Team

SANDO TOKEN WALLET

Wallets are applications that let you interact with your crypto account. Think of it like an internet banking app – without the bank. Your wallet lets you read your balance, send transactions and connect to applications. You need a wallet to send funds and manage your SANDO.

Your wallet is only a tool for managing your SANDO account. That means you can swap wallet providers at any time. Many wallets also let you manage several SANDO accounts from one application. That's because wallets don't have custody of your funds, you do. They're just a tool for managing what's really yours.

Most wallet products will let you generate a wallet account. So you don't need worry before you download a wallet.

- A wallet account is an entity that can send transactions and has a balance.
- A wallet account has an Ethereum address, like an inbox has an email address. You can use this to send funds to an account.
- A wallet is a product that lets you manage your wallet account. It allows you to view your account balance, send transactions, and more.

Metamask

A crypto wallet & gateway to blockchain apps, Start exploring blockchain applications in seconds. Trusted by over 30 million users worldwide.

Trust Wallet

Trust Wallet is a decentralized multi-coin cryptocurrency wallet. Buy crypto, explore DApps, swap assets, and more while keeping control of your keys.

- In a decentralized wallet, you hold the keys to your cryptocurrency wallet.
- A user controlled wallet, only the user has control over their funds.
- Has access to DApps unlike centralized wallets.
- Does not keep any personal information.
- Main goal is Making Crypto More Accessible.

Phantom

A friendly crypto wallet , Phantom makes it safe & easy for you to store, buy, send, receive, swap tokens and collect NFTs on the Solana blockchain.

METaverse

The Sando Token is a virtual world where players can create, control, and monetize their game experiences using currency, the platform's utility token, on the Ethereum blockchain.

Our goal is to provide a fully immersive metaverse where players may collaborate to develop virtual worlds and games without the need for a centralized authority. By giving artists actual ownership of their projects as non-fungible tokens (NFTs) and rewarding their participation with our utility token – Sando Token – we hope to upset incumbent game makers like Minecraft and Roblox.

The centralized ownership and control of user-generated material in the present game market restricts creative rights and ownership. Players are unable to generate fair value for their creations because of central control over the selling of virtual items made by them. Furthermore, proving creative ownership of works can be challenging, especially as content is copied, edited, and expanded upon.

We are introducing multiverse survival games on this platform. To participate in these games gamers need to buy Sando Token. Sando Token "metaverse survive Games" are now available. Survivors NFTs and Sando Token holders will be able to play the game online. Multiplayer games will be added, with gamers receiving their character special powers in battle based on NFT traits, such as legendary NFT holders receiving the most advanced game character enabled to play the game. The winners of the dual fighting game will receive Sando Token as a prize. Participants have to survive to earn rewards and Sando Token.

UTILITY OF SANDO TOKEN

Twenty years after peer-to-peer (P2P) file-sharing decimated the financial industry, blockchain is emerging as a new P2P technology that could rip the industry anew.

But this time, the revolution promises to be different. Whereas digital and pirated work once wreaked havoc on the industry of developers and creators at large (from creators to common users, none were spared), a blockchain-based earning business model for creators, artists, and developers pledges to boost the networking and investment opportunities, traveling waivers and benefits.

Sando Token is exactly the dream coming into reality for NFT devotees all over the world, helping them and artists with no boundaries. users can create, trade, buy sell their favorite avatar, This will not only be a universal currency for digital assets and work transaction medium but a sign of security of the authenticity of the work.

WHY SHOULD YOU INVEST IN SANDO TOKEN?

1

FRACTIONAL OWNERSHIP

2

QUICK AND STRAIGHTFORWARD PROCESS

3

TRANSACTIONAL FREEDOM

4

GREATER LIQUIDITY

5

SHORT SETTLEMENT TIMES

6

EASY TRANSACTIONS

7

INCREDIBLE SECURITY

WHY SHOULD YOU INVEST IN SANDO TOKEN?

INCREDIBLE SECURITY

Sando Token Prefers To Employ Secure Platforms Like Open-Sea And Raribles Because Our Platform Is Based On Blockchain Security. This Could Be One Of Sando Token's Most Reliable Advantages. Unlike Other Platforms, It Is More Secure.

EASY TRANSACTIONS

Transactions Can Be Carried Out Quickly, At A Cheap Cost, And In A More Private Manner Than Most Other Types Of Transactions. Anyone Can Send And Receive A Variety Of NFTs Using A Simple Smartphone App, Hardware Wallet, Or Exchange Wallet.

SHORT SETTLEMENT TIMES

While Some People Are Just Interested In Investing In Our Ecosystem For The Sake Of Capital Gains, Others May Benefit From The Opportunity To Use Tokens As A Medium Of Exchange.

GREATER LIQUIDITY

Sando Token Will Enable Us To Extract Liquidity From Illiquid Assets That Are Physically Tough To Divide. Tokenization Will Increase Liquidity By Allowing Us To Buy Or Sell A Fraction Of An Asset, Such As NFTs, And Will Lock Up Funds Rather Than The Investor.

WHY SHOULD YOU INVEST IN SANDO TOKEN?

TRANSACTIONAL FREEDOM

One Of Sando Token's Greatest Advantages Is That It May Be Used To Exchange Value Between Two Parties. This Can Be Done Without The Involvement Of A Third Party, Making The Transaction More Open And Resistant To Censorship.

QUICK AND STRAIGHT FORWARD PROCESS

A Sando Token Transaction Is Usually A Simple And Quick Process. NFT Can Be Moved From One Digital Wallet To Another, For Example, With Just A Smartphone Or PC.

FRACTIONAL OWNERSHIP

Each Token Can Easily Represent A Fraction Of The Total Value Of An Asset. This Lowers The Hurdles To Entry And Allows Everyone To Own A Fraction Of An Asset Like A Property Or An NFT, Making The Business More Accessible To Investors. They Could Also Refer To The Right To A Percentage Of The Earnings On An Asset's Value, Or Even Voting Rights In The Case Of Equity In A Company.

ROADMAP

Quarter 1

- 10% Airdrop Sando Token 1st Collection
- 5% Seed Sale
- 20% Private Sale
- 5% Pre-Sale (ICO)
- Whitepaper
- NFT Marketplace of Oceansky and Sandora
- Launch website Oceansky.io and Sandora.io
- Create Social Networks
- Start marketing Campaigns
- Build a Strong Community

Quarter 2

- 55% Airdrop Sando Token 3rd Collection
- 5% Public Sale (CEX)
- Sando Labs
- Launch Mobile App Version
- Multichain Connect with Lightning Network
- Launch Metaverse Game
- Sando Interest Version 2.0

Quarter 3

- 5% Airdrop Sando Token 2nd Collection
- 5% Public Sale (DEX)
- Multichain Connect with Polygon
- Playform Status Feature
- Sando Pool Liquidity
- Metaverse Marketplace of Metasando
- Launch website Metasando.io
- Membership System: Stake and Interest
- Sando Interest Version 1.0

Quarter 4

- 5% Airdrop Sando Token
- Sando Chain Network
- Sando Interest Version 3.0
- Sando Wallet
- Metaverse Game
- Metaverse Shopping Mall
